

The Interim Headhunter List – 2026 Edition

Introduction

Traditional executive search firms play a minor role in this area. Instead, the space is dominated by **Interim Service Providers (ISPs)** - specialist firms that place interims rapidly and often on the back of trust, speed, and past performance.

Over **52% of all interim assignments** are filled via ISPs, according to the **Institute of Interim Management (IIM)** - which each year publishes a ranked list of the top firms, voted on by over 30,000 interims (see scores below).

This list is your entry point to the ISP ecosystem. It identifies the firms that matter most and what sectors they cover.

How This List Helps

This is an **extensive list of every ISP** which includes the name, website, specialism and IIM ranking. It is too large a list to contact outright, but a **starting point** to understand who the ISPs are and what are their specialisms.

Defining an ISP shortlist and creating effective relationships is made easier using the Sideminds **Interim AI Coach** and Sideminds **Tailored 121 coaching** programmes. These active trainers help you not just **hone your interim proposition, brand and CV**, but connect you with **named recruiters** relevant to you and show you how to activate your network quickly and easily.

Sideminds AI Coaching

Our AI Interim structured career programmes use our **expert knowledge** and **full recruiter data** sets to give you the insight, information and direction to **position yourself and find roles**.

Interim and fractional roles are increasingly popular, but the market works very differently from permanent hiring. This structured AI programme is loaded with **everything you need to know about the interim space**.

You can **ask the Interim AI coach anything**. It will help you define your interim proposition, structure your interim CV, identify the specialist interim recruiters, VC and PE connectors most relevant to your market, and show you how to approach them in a targeted and effective way.

The programme also **includes a one-hour follow-up consultation** with Gareth Helm. Gareth has held multiple interim and full-time C-suite roles and can help you refine your CV, sharpen your proposition and identify the recruiters and connectors most relevant to your goals.

These **low-cost programmes** are designed to accelerate and enhance your interim job search.

Sideminds Tailored 121 Coaching

Navigating change on your own can be hard and exhausting whether in role or between roles. Our fully supported coaching programmes provide senior C-suite support to help you find your path through change.

These blend **coaching with experienced directional mentoring** when requested, so you always have a clear plan. If you are in role, this can include wider diagnostic testing and 360° assessments, so you can understand more about career choices which will suite you more

If between roles, this is can be practical step-by-step activity that builds momentum, enhances your focus and keeps you on track in achieving your goals. This might be developing an **interim or wider portfolio career**.

These structured programmes are **tailored to your needs** and generally include 3-5x 1hour 1:1 coaching session with prework.

Need More Help

If you'd like a **free 30-minute consultation** to discuss the interim market or your wider needs, please contact Gareth.

Gareth Helm
