

The Venture Capital Firm List - 2026 Edition

Introduction

Venture Capital is investment capital used to **back early-stage, high-growth companies**, often before they are profitable. VC firms usually invest in founders, products and markets that can scale quickly, and they often support companies through funding rounds, hiring, strategy, international expansion and later-stage growth.

For senior leaders, **VC firms can be useful contact points** for NED, Chair, interim, fractional and advisory roles. VC-backed businesses often need experienced operators who can help founders professionalise leadership, strengthen governance, scale commercial operations, enter new markets, build senior teams or prepare for later funding rounds.

This list is an entry point to the VC ecosystem. It identifies firms by stage, sector focus, investment size and portfolio highlights, so you can start to see which investors are most relevant to your experience and value proposition.

How This List Helps

This is an extensive **starting list of venture capital firms**. It is too large to contact outright, but it helps you understand the market and identify funds whose stage, sector focus and portfolio activity may fit your background.

For NED, Chair, interim or advisory work, the strongest VC approach is highly targeted. **You need to focus** on funds and portfolio companies that match your sector credibility, growth-stage experience, functional strengths and board-level proposition. Sideminds AI coaching tools and tailored programmes **help you with this targeting** and with shaping a clear approach.

Sideminds AI Interim, Permanent and NED Coaches

Our [AI structured career programmes](#) uses our **expert knowledge** and **recruiter, investor and connector datasets** to help you position yourself for interim, NED and permanent roles.

Each coach is trained to the career area, and you can **ask the AI coach anything**. It can help you define your interim, NED or permanent proposition, structure your CV, identify specialist recruiters by sector, as well as PE and VC connectors relevant to your market, and shape a targeted approach to the people most likely to value your experience.

Each programme is supported by a **follow-up consultation with Gareth Helm**. This is designed to help you refine your proposition, strengthen your CV and identify by name the recruiters, search firms and board connectors most relevant to your goals. Gareth has held multiple C-suite, interim and NED roles.

These **low-cost programmes** are designed to accelerate and enhance your job search.

Sideminds Tailored 121 Coaching

Sideminds Tailored 121 Coaching provides senior C-suite support to help you clarify your goals, sharpen your proposition and build a practical route to the market.

These programmes blend coaching with experienced directional mentoring when requested, so you have a clear plan and the confidence to act on it. If you are in role, this can include broader diagnostic testing and 360 degree feedback to understand your strengths, blind spots and future career options.

If you are between roles, the work can become practical step-by-step activity that builds momentum, improves focus and keeps you on track. This might include developing your interim or NED proposition, building the right CV or board biography, mapping your network and creating a VC outreach plan.

These structured programmes are tailored to your needs and generally include three to five one-hour 1:1 coaching sessions with prework.

Need More Help

If you would like a free 30-minute consultation to discuss the VC or PE market, NED opportunities, interim roles or your wider career needs, please [contact Gareth through Sideminds](#).

Note: Every effort has been made to ensure the information is as accurate as possible, but firms, funds, portfolios and market focus can change. This public version excludes personal emails, mobile numbers and named individual contact details. Use it as a starting point, then validate firm focus and contact routes before outreach.
